Roster Addition Validation And Approval

The online Roster Management system for team on USSSA.com has added logic to verify that a player being added to a team's roster meets the designated rules for that sport.

For Fastpitch, the logic has been added to check the following roster rules/guidelines:

- Once rostered, a player may not move to a team with a lower class without State Director approval. This applies to the most recent team the player was rostered with. Once approved for a class, moves within will not require approval.
- When a player is released from a team, they may not return to that team without State Director approval. This applies to any team in their history for the current season.

Below you will find information on what a Team Manager will encounter in terms of workflow and interface from the website and approval communication.

Step 1 – Team Manager Attempts to Add an Ineligible Player

When a team manager attempts to add a player to their roster the workflow will stay the same in terms of where and how they add a player. If the player is an eligible add, they will be added to the team in the traditional workflow.

If the player is ineligible, the team manager will see a message posted that will detail that the player HAS NOT been added to the roster and why.

(Seen below the “Add to Roster” button. This example shows only one of the replies based on this specific example.)

Eligible Players (8)

Added After Frozen (None)

Add to Roster

Cancel

The player was unable to be added to your team due to the following roster rules:

- Player was previously on this teams roster

Your State Director has been notified and will need to approve this roster addition. You will receive an email letting you know their decision.

From here the team manager is not required to complete any further steps. The State Director will now be required to approve/deny this roster add. ***It is important to note, the player is NOT added to the roster until this approval is done.***

Step 2 – State Director Approve/Deny the Roster Addition

Once a manager attempts to add a player that requires approval, the State Director will receive an email letting them know they have an application by a team manager to add a player that requires their attention.

The State Director will review this application and determine if it is approved or denied.

Step 3 – Notifications after Approval/Deny of Players

If the player addition is approved:

- The player will be added to the roster as an eligible player
- Email will be sent to the team manager that applied with notification

Roster Approval Decision - Jacob Bryan

USSSA <no-reply@ussa.com>

2:24 PM

To: Jimmy Reichley

Your State Director has **approved** your request to add Jacob Bryan to your team, Regina 2029.

You should see the player on your roster immediately.

If the player addition is denied:

- No changes in roster will be made, the application will be closed.
- Email will be sent to the team manager that applied with notification

Roster Approval Decision - Owen Taylor

USSSA <no-reply@ussa.com>

2:24 PM

To: Jimmy Reichley

Your State Director has **denied** your request to add Owen Taylor to your team, DSM Avengers.

For more details please contact your State Director.
